Dear

FREEDOM OF INFORMATION – MENTAL HEALTH REFERRALS

I write in response to your request for information in relation to referrals from CAMHS to adult mental health services.

Question:

- Can you confirm for the previous three years broken down by year the number of applications for referral from CAMHS to AMHS. Of that, please confirm the number of applications accepted and the number rejected. Of those rejected, please state which tier of support they had received e.g. tier 3. Can you confirm how many were recorded as not meeting the threshold/criteria for continued support. Of those rejected, how many don't have reasons recorded. Can you also confirm how many young people were retained by CAMHS after turning 18.

Answer:

There is no specific information held in the electronic record to indicate a direct / planned referral from CAMHS to an AMH service. It would require a review of the clinical notes.

Under the Freedom of Information Act NHS Lothian is not required to create new records to enable it to respond to your enquiry. This information is not collated or held in aggregate form and it would be necessary to review all case files relating to patients over the period you have requested to assemble the information you seek. Even if NHS Lothian did this – and there would be significant cost implications in doing so – it would be unable to respond in full to your request. The information requested is therefore exempt under section 12.1 – Cost.

I am sorry I cannot help further with your request.

If you are unhappy with our response to your request, you do have the right to request us to review it. Your request should be made within 40 working days of receipt of this letter, and we will reply within 20 working days of receipt. If our decision is unchanged following a review and you remain dissatisfied with this, you then have the right to make a formal complaint to the Scottish Information
