Dear

FREEDOM OF INFORMATION – WORK ORDERS

I write in response to your request for information in relation to work orders.

Question:

1. A comprehensive list of all projects, works orders, call-offs or instructions with an estimated or awarded value exceeding £10,000 (excluding VAT), showing for each:
 - unique job, order or reference number
 - date issued
 - site / property
 - brief description of the works
 - estimated value and final value, where available
 - contractor awarded the work
 - whether the opportunity was competitively quoted / tendered to framework contractors, or directly awarded
 - where competitively quoted / tendered, the contractors invited to quote and the successful contractor
 - where directly awarded, the recorded justification for not using a competitive quotation process

Answer:

See enclosed spreadsheet.

Question:

2. The total value of all Lot 1 work awarded through the framework during the same period, broken down by contractor.

Answer:

Total value of £2,782,728.63 – HF Electrical & Mechanical or HF Group Ltd – 1303 purchase order line items.

Question:

3. The total number and total value of Lot 1 projects over £10,000 that were:
- competitively quoted / tendered, and
 - directly awarded.

Answer:

Available data does not confirm if competitively quoted / tendered to framework contractors or directly awarded.

- The data held within the NHS Lothian purchasing system does not provide sufficient detail to fully answer your request. Requisitioners are restricted to selecting items from prescribed catalogues with fixed line-item descriptions, meaning key information required to respond comprehensively is not captured at the point of order.
- The available records do not allow confirmation of whether the works referenced were instructed under a framework agreement or carried out as ad hoc activity outside the framework. The dataset does not include fields that distinguish between these procurement routes.
- Purchase orders with an 'SPC' prefix for 'HF Group Ltd' or 'HF Mechanical and Electrical' were excluded as they relate solely to planned preventative maintenance (PPM) activities. The dataset does not contain sufficient detail to identify which, if any, purchase orders pertain to remedial works arising from PPM, preventing accurate separation, or reporting of such activity.

I hope the information provided helps with your request. I am sorry I cannot help with your request.

If you are unhappy with our response to your request, you do have the right to request us to review it. Your request should be made within 40 working days of receipt of this letter, and we will reply within 20 working days of receipt. If our decision is unchanged following a review and you remain dissatisfied with this, you then have the right to make a formal complaint to the Scottish Information Commissioner within 6 months of receipt of our review response. You can do this by using the Scottish Information Commissioner's Office online appeals service at www.itspublicknowledge.info/Appeal. If you remain dissatisfied with the Commissioner's response you then have the option to appeal to the Court of Session on a point of law.

If you require a review of our decision to be carried out, please write to the FOI Reviewer at the email address at the head of this letter. The review will be undertaken by a Reviewer who was not involved in the original decision-making process.

FOI responses (subject to redaction of personal information) may appear on NHS Lothian's Freedom of Information website at: <https://org.nhsllothian.scot/FOI/Pages/default.aspx>

Yours sincerely

ALISON MACDONALD
Executive Director, Nursing
Cc: Chief Executive
