

Dear

FREEDOM OF INFORMATION – MENTAL HEALTH ASYLUM SEEKERS AND REFUGEES

I write in response to your request for information in relation to asylum seekers and refugees mental health services

Question:

1. Total spend on mental health services for asylum seekers and refugees in the last three years.
 2. Number of referrals to mental health services from this group.
 3. Any specific trauma or torture survivor support programmes and their costs.
-
1. Total spend by NHS Scotland on mental health services for asylum seekers and refugees in the last three years.
 2. Number of referrals for trauma, PTSD, or torture-related mental health issues.
 3. Any specific funded programmes for refugee mental health.

Answer:

We are unable to provide a response in relation to secondary care mental health services as we are unable to identify asylum seekers or refugees in the electronic patient record. This information is not held in a centrally extractable format.

Under the Freedom of Information Act NHS Lothian is not required to create new records to enable it to respond to your enquiry. This information is not collated or held in aggregate form and it would be necessary to review all case files relating to patients over the period you have requested to assemble the information you seek. Even if NHS Lothian did this – and there would be significant cost implications in doing so – it would be unable to respond in full to your request. The information requested is therefore exempt under section 12.1 – Cost.

I am sorry I cannot help with your request.
